

Frank Stewart

I have experience managing teams, developing design systems with working code, and generating research findings that drive product cycles. Need someone to lead your UX team? Looking to establish good design and research practices? I can help.

Experience

Frontend Design (2004–2012)

The days of web 2.0. My focus was UI design, Agile development, and building web apps.

- **Cultural Tourism DC**

UX Design (2012–2015)

The data revolution. My growth to data-driven design, web components, and user testing.

- **The Motley Fool**

UX Leadership (2015–2021)

The rise of Design systems. Research-driven process, systems thinking, and team leadership
